

# Solar Eclipse 2024

**On April 8th at approximately 12:25 pm,  
Leonard will be in the path of totality for 3  
minutes and 29 seconds.**

Although students will not be in school on the 8th due to staff development day, we would like for all students to have the opportunity to participate in viewing this event. **We are excited to announce all LISD students and staff will receive free solar eclipse glasses.**
